# M.S. IN ACCOUNTING

The Lerner College's master of science in accounting is a smart next step, whether you are beginning your accounting career or looking to advance in your current position. The M.S. in accounting degree provides you with a competitive advantage, as you'll broaden your analytical and problem solving skills and develop the judgment skills needed to manage teams in accounting organizations.

This graduate professional degree will prepare you for a career in public accounting, consulting, industry, finance or government while helping you earn the credit hours required for the CPA exam.

We offer concentrations in financial management, controllership, management information systems and data analytics to prepare you for the most in-demand careers in the accounting field.
