## Installation Task Map for Preconfigured Sun Fire 4810/4800/3800 Systems in a Sun Fire Cabinet

<table>
<thead>
<tr>
<th>Step 1</th>
<th>Verify power, air conditioning, and floor area requirements — Refer to the <em>Sun Fire 4810/4800/3800 System Installation Guide</em></th>
</tr>
</thead>
</table>
| Step 2 | Set up Sun Fire cabinet, connect power cables — Refer to the *Sun Fire Cabinet Installation and Reference Manual*  
         | Connect an administrative console to access the system controller — Refer to the *Sun Fire 4810/4800/3800 System Installation Guide* |
| Step 3 | Power on Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual*  
         | Power on the individual systems — Refer to the *Sun Fire 4810/4800/3800 System Installation Guide*  
         | Allow the system to run through POST and ensure there are no errors, then power off the system and the Sun Fire cabinet |
| Step 4 | Install options and storage devices — Refer to the documentation that came with the option or storage for details |
| Step 5 | Power on Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual*  
         | Power on the individual systems — Refer to the *Sun Fire 4810/4800/3800 Systems Installation Guide* |
| Step 6 | Configure system — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual*  
         | Create additional domains (if needed) — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual* |
| Step 7 | Install Solaris Operating Environment on each domain — Refer to the *Solaris (SPARC Platform Edition) Installation Guide*  
         | Boot Solaris Operating Environment on each domain — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual* |
Installation Task Map for Rackmounting a Sun Fire System in a Sun Fire Cabinet

Step 1
• Verify power, air conditioning, and floor area requirements — Refer to the Sun Fire Cabinet Installation and Reference Manual

Step 2
• Set up Sun Fire cabinet — Refer to the Sun Fire Cabinet Installation and Reference Manual
• Mount system into Sun Fire cabinet — Refer to the Sun Fire 4810/4800/3800 Systems Cabinet Mounting Guide
• Connect an administrative console to access the system controller — Refer to the Sun Fire 4810/4800/3800 Systems Installation Guide

Step 3
• Power on Sun Fire cabinet — Refer to the Sun Fire Cabinet Installation and Reference Manual
• Power on the individual systems — Refer to the Sun Fire 4810/4800/3800 Systems Installation Guide
• Allow the system to run through POST and make sure there are no errors, then power off the system and the Sun Fire cabinet

Step 4
• Install options and storage devices— Refer to the documentation that came with the option or storage for details

Step 5
• Power on Sun Fire cabinet — Refer to the Sun Fire Cabinet Installation and Reference Manual
• Power on system — Sun Fire 4810/4800/3800 Systems Installation Guide
• Configure system — Refer to the Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual
• Create additional domains (if needed) — Refer to the Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual

Step 6
• Install Solaris Operating Environment on each domain — Refer to the Solaris (Sparc Platform Edition) Installation Guide
• Boot Solaris Operating Environment on each domain — Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual
Installation Task Map for Standalone Sun Fire 4810/4800/3800 Systems

Step 1
- Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire 4810/4800/3800 Systems Installation Guide*

Step 2
- Set up system, connect power cables — Refer to the *Sun Fire 4810/4800/3800 Systems Installation Guide*
- Connect an administrative console to access the system controller — Refer to the *Sun Fire 4810/4800/3800 Systems Installation Guide*

Step 3
- Power on the system — Refer to the *Sun Fire 4810/4800/3800 Systems Installation Guide*
- Allow the system to run through POST and make sure there are no errors, then power off the system

Step 4
- Install options and storage devices — Refer to the appropriate Sun Fire option guide

Step 5
- Power on system — *Sun Fire 4810/4800/3800 Systems Installation Guide*

Step 6
- Configure system — Refer to the *Sun Fire 4810/4800/3800 Systems Platform Administration Manual*
- Create additional domains (if needed) — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual*

Step 7
- Install Solaris Operating Environment on each domain — Refer to the *Solaris (SPARC Platform Edition) Installation Guide*
- Boot the Solaris Operating Environment on each domain — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual*
