Sun Welcomes Your Comments

Sun is interested in improving its documentation and welcomes your comments and suggestions. You can email your comments to Sun at:

docfeedback@sun.com

Please include the part number (806-4714-10) of the document in the subject line of your email.
Sun Fire 4800 System Fan Tray

The Sun Fire™ 4800 system has three fan trays that collectively cool the system, except for the power supplies, which have their own internal fans. The fan tray locations in the system are labeled FT0, FT1, and FT2, and FT0 is the optional fan tray location.

Installing a Fan Tray in a Powered-On System

1. Loosen the captive screws of the filler panel and remove the filler panel and save it.
2. Immediately insert the fan tray into the slot.
3. Tighten the captive screws.
4. Power on the fan tray.

Installing a Fan Tray in a Powered-Off System

1. Power off the system.
   Refer to the Sun Fire 6800/4810/4800/3800 Powering the System On and Off Guide to complete the power off steps.
2. Complete Step 1 through Step 3 in the procedure “Installing a Fan Tray in a Powered-On System.”
3. Power on the system.
   Refer to the Sun Fire 6800/4810/4800/3800 Powering the System On and Off Guide to complete the power-on steps.

Removing a Fan Tray From a Powered-On System

1. Power off the defective fan tray.
   Refer to the Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual for complete procedures for powering off the fan tray. You DO NOT have to power off the AC input box, or RTS module(s).
2. Make sure you have a replacement fan tray or filler panel available.
3. Loosen the captive screws from the fan tray.
4. Remove the fan tray.
5. Install a replacement fan tray or filler panel.
6. Power on the fan tray.

Removing a Fan Tray From a Powered-Off System

1. Power off the system.
   Refer to the Sun Fire 6800/4810/4800/3800 Powering the System On and Off Guide to complete the power off steps.
2. Complete Step 2 through Step 5 in the procedure “Removing a Fan Tray from a Powered-On System.”
3. Power on the system.
   Refer to the Sun Fire 6800/4810/4800/3800 Powering the System On and Off Guide to complete the power-on steps.
