

Permission to Apply to the Legislative Fellows Program

Students selected to serve as Legislative Fellows may not hold outside employment during their tenure and, therefore, are required to resign their previous posts prior to the Legislative Fellows Program orientation, which is scheduled for the first week of January. We require students who are currently working (on- or off-campus) to request permission from their (1) supervisor and, if applicable, (2) center director to apply for the Legislative Fellows Program. This is to ensure open communication regarding our employment practice and policy. **Please complete and submit this form to Lisa Moreland Allred, Manager of the Legislative Fellows Program, with your completed application.**
