

UNIVERSITY OF DELAWARE  
HEALTH SCIENCES

**THE CENTER OF  
BIOMEDICAL RESEARCH  
EXCELLENCE IN  
CARDIOVASCULAR HEALTH:  
2024 CARDIOVASCULAR  
RESEARCH SYMPOSIUM  
LIST OF POSTERS**

# List of Posters

**1**

**Development of a Tissue Engineered Construct to Quantify the Influence of Pathological Hemodynamics on Brain Strain and Injury**

Presenter: Rishabh Singh

*Co-authors: Taitano R., Singh R., Freeman S., Slater J.*

**2**

**Effect of a chatbot-led sleep intervention on sleep health metrics in Black/African American college students with cardiometabolic risk**

Presenter: Sanaz Taherzadeh

*Co-authors: Taherzadeh, S., Brownlow, J., Patterson, F., Orsega-Smith, E., Zhang, J., Wolgast, B., Ji, X.*

**3**

**Stability of Sleep and Cardiovascular Health Metrics Across a 1-year Period in Young Adults**

Presenter: Thomas Keiser

*Co-authors: Hoopes, E., D'Agata, M., Szymanski, K., Brewer, B., Witman, M., Patterson, F.*

**4**

**Obesity induces an increase in fatty acid uptake in endothelium of visceral adipose arteries without altering CD36 expression.**

Presenter: Erica Johnson

*Co-authors: Rokka, S., Halbert, C. Nguyen, T., Fancher IS.*

**5**

**Affective responsivity to daily stressors and microvascular endothelial function**

Presenter: Aaron S Autler

*Co-authors: Clarisse M Hunt, Ashley M Darling, Jacqueline Mogle, David M Almeida, and Jody L Greaney.*

---

# List of Posters

**6**

## **Elevated Glucose and Fatty Acids Enhance Mitochondrial CD36 Expression and ROS Production in Endothelial Cells**

Presenter: Bhaswati Kashyap

*Co-authors: Thanh Nguyen, Erica Johnson, Ibra S Fancher*

**7**

## **Energy Metabolism of PBMCs in Adults with HFrEF and Clinically Significant Fatigue**

Presenter: Christine Hoch

*Co-authors: Klinedinst, N.J., Rangghran, P., Gottlieb, S., Borcar, A.*

**8**

## **Predictors of Attenuated Chronotropic Response to Aerobic Testing Following Lower-Limb Loss**

Presenter: Samantha Stauffer

*Co-authors: Sarlo, FB., Horne, JR., Sions, JM.*

**9**

## **Extracellular Endothelial Microvesicles Causative Agents in Obesity-Related Endothelial Dysfunction**

Presenter: Vinicius Pacheco Garcia

*Co-authors: Garcia V.P., Brewster L.M., Fandl H.K., Stockelman K.A., DeSouza N.M., Treuth J.W., Greiner J.J., Davy K.P., DeSouza C.A.*

**10**

## **A high potassium intake improves endothelial function and reduces IL-6 under high-sodium conditions in salt-resistant adults**

Presenter: Cesar Jacintho Moritz

*Co-authors: Andrea J. Lobene, Kathryn E. Kaseman, Jessica M. Irwin, William B. Farquar, Shannon L. Lennon.*

# List of Posters

**11**

**Type 2 diabetes is associated with endothelial dysfunction**

Presenter: Emma Hudgins

*Co-authors: Masoumeh Sadeghinejad, Adam Bonar, Erica J. Johnson, Ibra S Fancher*

**12**

**Altered Peripheral Arterial Function and Wave Reflection in Boys with Duchenne Muscular Dystrophy**

Presenter: Alexs Matias

*Co-authors: Krista M. Szymanski, Michele N. D'Agata, Mena Scavina, Michael A. McCulloch, Julio A. Chirinos, David G. Edwards, Melissa A. Witman*

**13**

**Diet quality and microvascular endothelial function in emerging adults**

Presenter: Clarisse Hunt

*Co-authors: Autler, AS., Trabulsi, JC., Greaney, JL.*

**14**

**Effects of chronic kidney disease and exercise training on blood pressure dipping**

Presenter: Jessica Irwin

*Co-authors: Danielle L. Kirkman, David G. Edwards*

**15**

**The effects of added sugar intake on cerebrovascular health in midlife adults**

Presenter: Kevin Decker

*Co-authors: Zoe Rigas, Nicholas A. Rizzi, Catherine Awad, Faria Sanjana, Mary K. Kramer, Curtis L Johnson, Shannon L. Lennon, Christopher R. Martens*

---

# List of Posters

**16**

**Exploring a Potential Relation Between Vitamin D and Blood Pressure Variability in Young Black Women**

Presenter: Evan Ciecko

Co-authors: *D'Agata, M., Matias, A., Szymanski, K., Witman, M.*

**17**

**HEALTH for All: Blood Pressure Disparities in New Castle County, Delaware**

Presenter: Juneessa Pressley

Co-authors: *Christine Sowinski, Heather Milea, Jennifer Horney*

**18**

**The Effect of a Diet High in Added Sugars on Circulating Brain-Derived Neurotrophic Factor**

Presenter: Nick Rizzi

Co-authors: *Decker, K., Rigas, Z., Awad, C., Sanjana, F., Cohen, M., Lennon, S., Martens, C.*

**19**

**Cardiovagal Baroreflex Sensitivity in Pre- and Perimenopausal Women**

Presenter: Allyson Schwab

Co-authors: *Shane J. McGinty, Megan M. Wenner*

**20**

**Dissecting the Dissection: Decision making in Aortic Disease with Focus on Turner Syndrome**

Presenter: Hisham Sherif

**21**

**Quantifying Biomarkers in Blood: A New Frontier for Early Detection of Alzheimer's Disease**

Presenter: Kirti Daga

Co-authors: *Rizzi, A., Decker K., Cohen, M., Pohlig, R., Brockmeier, A., Johnson, C., and Martens, C.*
