Their methods for doing a break out room then going over the questions together was really appreciated, and helped me understand how to approach questions even if I wasn't confident in them going in

I really liked Li An!!

Cleared up questions and explained topics very well.

Li An Chen was a very good assistant, I was helped a lot in office hours when I had questions on proofs and worksheets and it definitely helped to go to them to structure my proofs better.

As noted in the main course review, I did not find breakout rooms helpful at all - students did not work together, and instead sat muted with cameras off. I can see why breakout rooms would seem useful, but in practice it has not worked in any of the virtual math courses I have taken.

.

None

She was always super helpful and even stayed after to answer additional questions.

Loved Chen, a very good instructor and was extremely helpful! Helped explain a lot of confusing topics and gave clear examples

There was never a question that we could ask that wouldn't be answered. Great GA.
Li An was very helpful.
Thankful for this extra bit of instruction, helped solidify any concepts and helped with HW.
Explained concepts thoroughly and was able to answer questions from the class
Great TA

Nothing
The Graduate Assistant helped me a lot and I am forever thankful for that.
Great job!
The Graduate assistant was very helpful
Yes
She really help for our work in this course
She was very helpful at answering questions that I did not think to bring up with the professor and at explaining more complicated applications of the material learned during the lectures.
Li An is an above average TA. She explained tough problems and concepts very well, and her English is impeccable.
I like how she went through examples and welcomed all questions!
The graduate assistant was always willing to help with any issues and helped to clarify some difficult problems
Was very helpful and always open to further explain.
one of the best TAs I've ever had
Good
