N/A

Good professor

Knowledgeable and approachable. The grading was fair and the notes were always detailed. Homework was helpful for studying. Sometimes there's difficultly in communicating in depth what the notes mean, but she has great handwriting so the notes were still easy to understand.

N/A

I really enjoyed this professor and she did a really great job explaining the topics and going through the provided worksheets every class. She was always prepared to teach and always answered questions and provided very organized notes.

N/A

Overall, this class was organized very well.

Very fair grading policies.

very good teacher that knows what she's doing very well just sometimes hard to understand her explanations and sometimes read her writing

N/A

Quizzes and exams were always fair, and I really appreciate that.

N/A

Very helpful and Structured the course very well

The course got more difficult over time but I did better as time went on, so I think her ability to teach discrete math is pretty great.

N/A

The work she gave out was very fair and she graded extremely fairly as well. I liked having problems every week to help my understandings and she always graded them on time and got them back to us in a very reasonable time. I enjoyed the structure of this class and it was very well run and you could tell that she understood the topics very well.

N/A

The assignments were always graded in a good amount of time and the quizzes and exams were very similar to the material we covered in class which made the questions easier to understand.

It would be helpful to provide answers to the extra practice problems.

very intelligent teacher that is very knowledgeable on the topic and had consistent work/ week which was nice to make schedules

N/A

this class was super interesting! i love understanding the math behind the math, if that makes sense.
